

Short HOWTO for Template of Theses' Cover

You may choose the design of the cover from the following:

- CTU brand style guide: graduate thesis template,¹
- this template (see also the information in this document).

Note these possible issues:

- all the proposed information must be included in correct order and letter case:
 1. NAME OF THE UNIVERSITY AND FACULTY,
 2. CTU logo,
 3. thesis' title,²
 4. THESIS' TYPE,
 5. year & first name and SURNAME incl. academic degrees;³
- font, especially metrics (size, width),
- exact layout.

Shelf back⁴ should include information in the following format:

year (left) TYPE OF THESIS (centre) Name and SURNAME (right)

Use this template with L^AT_EX 2e (TeXLive 2010 recommended).

1 Bachelor's Thesis

Select file by colour:

- `coverBachelors-inverse_colours` for preview, look close to result,
- for print preview use rather `coverBachelors-bw`.

To create preview with your data, select source file named as above and use `pdflatex` command to process it.

¹<https://www.cvut.cz/en/ctu-logo>

²Only in case of the design by this template. The CTU brand style guide does not require the thesis' title on the cover.

³Printing academic degrees on the cover is optional.

⁴Printing any information on the shelf back is optional.

2 Master's Thesis

Select file by colour:

- `coverMasters-inverse_colours` for preview, look close to result,
- for print preview use rather `coverMasters-bw`.

To create preview with your data, select source file named as above and use `pdflatex` command to process it.
